RISK MANAGEMENT GROUP

COMMUNITY SAFETY ASSESSMENT PROGRAM (CSAP)

COMMUNITY SAFETY ASSESSMENT PROGRAM

Designed to assist communities who suffer from higher levels of crime and nuisance activity, the CSAP will establish increased community safety and confidence. By conducting an in-depth analysis, applying critical thinking and problem solving, and engaging the community and broader stakeholder audience, including law enforcement and public service, we will map out a way forward.

COMMUNITY APPLICATION

Safety and security are essential to successful, sustainable communities and provide residents with the opportunity to flourish. A community experiencing higher levels of crime and nuisance is a time and cost burden to public services. Further, the margins necessary for private business growth, erode quickly in deteriorating neighbourhoods.

In these communities the needs of future generations are often less well respected. They are often poorly designed and serviced and people feel unsafe and insecure because crime and nuisance activity continues to undermine quality of life and community cohesion.

Our program is fully transferable and can be applied to any scale in any community setting; industrial, retail, commercial, and residential, either individually, or in combination, recognizing the 'mix' that more traditionally defines a community.

THE PROCESS

Our program goal is to produce a comprehensive, complementary and coherent suite of enforcement, situational, social, community, developmental and rehabilitation recommendations for our clients. These recommendations guide tasking to reduce crime and nuisance, move away from revolving door crime containment; and break the cycles of crime.

We know through experience that sustainable solutions require far more attention be dedicated to criminality prevention. Lions Gate provides custom strategies to reduce the risk of offending and re-offending, by promoting effective and strategic protective programs.

As part of the program we engage with stakeholders in the community and provide the justification behind our suggested measures, thereby enabling and encouraging those with the authority or ability to act, to do so.

*“Reclaiming a community requires
a coordinated effort”*

PROGRAM MANAGEMENT PLAN

PHASE ONE

- Baseline Mapping
- Partner Consultation
- Contextual Research
- In Depth Analysis
- Response Development
- Report Development

PHASE TWO

- Recommendations Implementation
- Program Assessment/Evaluation

LIONS GATE RISK MANAGEMENT AND THE CSAP

Lions Gate Risk Management’s CSAP can be a catalyst in reversing decline and advancing recovery because we have a unique skill set with our considerable experience operating on crime and loss projects thereby giving us the expertise to know what works efficiently in crime and nuisance reduction.

Lions Gate Risk Management Group is a leading-edge security and risk management firm that is uniquely qualified through deep industry knowledge and real world experience, to deliver a proactive, uncompromising suite of risk management, protection, and investigation services across Canada.
